

# ETTINGTON PC CLERK/CORRESPONDENCE REPORT

Date: March 13<sup>th</sup>, 2024

Item 9:- Clerks Report and correspondence

1. **Defibrillator:** the defib has been fitted outside The Chequers. It now needs to be commissioned and registered with The Circuit and I am awaiting support from Ettington First Responders. They will also be removing the defib from outside the school. I have been contacted by a resident concerned there is no accessible defib at that end of the village. Can consideration be given to installing one.
2. **Clerks: Land and Property Registration**  
I am attending the webinar below next week. Are councillors aware of any land in Ettington that we may want to consider?

*Does your council own or occupy any unregistered land? Do you know if all your land is registered? Do you have files or boxes of deeds somewhere and going through them is on your to-do list? Are you aware that the Land Registry wants ALL land in England registered by 2030? If you have answered 'yes' to any of these questions, or 'no' in the case of the latter, then this is the session for you. Simon Escreet of Land & Property Registration will be talking to our clerks about this and is able to support them through the process.*

3. **UKSPF Funding**  
I am investigating the potential of a grant from this year's UKSPF Funding announced by SDC this week. There is a £200k fund for improving sports facilities and I have submitted a request for guidance on an application for funding for the outside toilets.
